**COST OF MEDICAL SUPPLIES:** \$120 per month

**TRANSPORTATION COST:** \$20 per month (bring/send medicines to people)

**SPONSOR PAYS:** \$110 - \$130 monthly (Smaller donations accepted!)

**About the area:** Lia is the poor, remote and mountainous ward of Huong Hoa district, Quang Tri province. The south of the ward shares the border with Laos. The Van Kieu, Pa Co ethnic is about 98% of the population. Their main income is from cassava but it depends of the weather, and the agreement from the local company who buys the products. People here often suffer from diseases related to the digestive system. Children often have problems with skin disease sand fevers. Traveling in this area is not too difficult except that it is too far to reach a nearby medical station or pharmacy, even by motorbike. They are in need of medicines and really need your kind heart. Please help!

**LOVE's note:** The medicine cabinet is located in the Church where a deacon knows how to use these medicines and helps to distribute them to the people when they need it.

**You can provide funds for the whole area with \$110 - \$130 or you can donate with fewer amounts, depending on your ability. Donations of \$20, \$30 or \$50 add up!**
