

FROM RECEIVING HELP TO GIVING IT BACK: NGUYEN THI HA

Nguyen Thi Ha grew up in a family facing many financial difficulties. Her father worked in construction until several workplace accidents left him unable to continue the job. With unstable income, medical expenses, and three children still in school, life became very challenging for her family.

Ha received sponsorship support from **G4Kids**, **LOVE**'s partner organization in Europe, when she was in Grade 3 and continued receiving support until her final year of university. Along with financial assistance, the care and encouragement from **G4Kids**, **LOVE** staff and her sponsor, *Janet*, gave her confidence to keep pursuing her education.

Books & uniform support in 2013

E-bike gift in 2015

Cash support for extra classes in 2016

COVID-19 support in 2020

One moment she never forgot was being accepted into one of the top high schools in Da Nang. When transportation became a challenge, her sponsor helped provide her with a second-hand electric motorbike so she could continue attending school. Inspired by the kindness she had received growing up, Ha later chose to study Social Work and eventually interned at **LOVE** during university.

Tet holiday gift in 2022

Today, she is working at **LOVE** as a **HOPE Scholarship Representative** and **HOPE Fund Assistant**, after previously serving as a **Sponsorship Project Coordinator** supporting children and families in Da Nang and Quang Nam.

Years ago, Ha was one of the children being supported. Today, she has become someone helping support the next generation in return.
