

From Sponsorship Recipient to Community Changemaker

When Luong Thi My Trinh left her rural hometown to attend university in Da Nang, she carried with her big dreams and the financial challenges faced by many students from farming families. During her studies, a L.O.V.E. sponsorship helped ease those burdens, allowing her to focus on her education and future goals.

After graduating, Trinh spent several years studying and working in the city. Yet her heart remained connected to her hometown and the people who had shaped her journey. In 2020, she made the bold decision to return home and invest in her community.

Today, Trinh leads a local cooperative that develops products from clean, locally sourced agricultural produce. Through her work, she helps create sustainable income opportunities for farming families while promoting the value of local products. What began as a personal dream has grown into a mission to support her community's development.

Showcasing her products at the local Women's Congress

Stories like Trinh's demonstrate how educational support can create lasting change for individuals, families, and communities. Thank you to our sponsors for making these journeys possible.
